

Lanzo BP Rack

Both our racks type Typ "BP 51515" and "BP 51130" were developed particularly for the BraPlast boxes of the sizes 18,5 x 12,5 x 7,5 cm (type 51515) and 24,5 x 18,5 x 7,5 cm (type 51130). These boxes are much-loved and wide-spread among herpers and find use e.g. for rearing geckoes, Lampropeltis, or corn snakes.

Providing the exactly fitting rack we offer the opportunity to use and heat (!) these popular boxes much easier and more effective. Control, cleaning and maintenance can be done much faster and neatly because you don't need a lid using the rack.

From now on we offer our BP Racks in ThermoPremium construction meaning even more stability and above all lesser use of energy for heating. The segmentation of the layers remains unchanged, and we've integrated a perfect heating using a precisely constructed heat tape (panel heating). The back 8 cm of the box are heated this way.

You can choose for yourself how many layers your rack will have. A maximum of six layers is possible, a maximum of 18 layers can be stacked on each other. Therefore your rack can be enlarged and will fit your needs all the time.

BP 51130 – size: 100 x 26,5 cm, each layer ca. 9 cm high, 5 boxes/layer, prices always include panel heating!

Rack with:

1 layer	75.00 €
2 layers	140.00 €
3 layers	205.00 €
4 layers	270.00 €
5 layers	335.00 €
6 layers	400.00 €

BP51515 – size: 102 x 20,5 cm, each layer ca. 9 cm high 8 boxes/layer, prices always include panel heating!

Rack with:

1 layer	65.00 €
2 layers	120.00 €
3 layers	175.00 €
4 layers	230.00 €
5 layers	285.00 €
6 layers	340.00 €

All prices incl. 19% VAT, packing and shipment extra!
